

Websites built from scratch:

We made this website from scratch using the website building software WordPress.

We can make your website from scratch too – our affordable pricing and quick results will make your new website worth all the time and money.

Whether it be a blog, E-commerce, Wiki, a portal, a file storage site, or anything else – the sky is the limit, so rest assured we can make your brand-new site, provided you help us with a few things...

We can only make what you ask for – you must know what you are looking to get out from us, you can fill in the 'Build-a-Website' quote form back on the website, and tell us what you are looking to have made – we will get back to you for extra information we need you to provide, these may be things such as:

- What your company does
- Do you have a site already? Do you want it revamped, do you want a brand new one, or a new sister-site/standalone site?
- Do you prefer specific hosting? *E.g.: Do you have a domain already? Would you like accessible online hosting, or would you like us to host your site?*
- Website type/what you want to accomplish
- Website name and tagline
- Do you have branding already that you want the style to follow/include?
- Rough idea of Amount of pages
- Page titles
- Specific features of the site
- References/styles you'd like to follow and why?
- A colour palette/theme you'd like to follow and why?
- What would your consumers achieve by visiting your site?

After you have told us what you are looking for, we will get back to you with prices, a time schedule and other important information.
